### PRODUCT FUNCTION DIAGRAM

### OPERATION INSTRUCTION

- 1.Remove skin and nuts, cut fruits to several pieces, place the fruit in the cup. Please don't more than the Max.
- 2.Pour water /milk / any liquid, not more than the Max. (Do not grind without any liquid)
- 3.Tighten the cup and the lid, the blue light flashes, incline the machine to the angle of 45°, press the switch to turn on. (When you first time to press switch, it will display the battery. Press it again, blender will start blend.)
- 4.Stir at a tilt and shake the juicer gently for better & faster results.
- 5.40 seconds automatic mixing, enjoy your nutritious drink.

**NOTE:** When not use blender in about 20 minutes, the product will turn off automatically.

**\*\*Mission Statement:\*\***

At HomeBasic, the profound impact of child trafficking has deeply touched our founders, igniting a steadfast commitment to fight this grave crime against Humanity.

Driven by this purpose, we have vowed to allocate 1% of our gross sales to support leading organizations dedicated to rescuing and rehabilitating children from human trafficking. This contribution is our collective effort to champion this vital cause.

Your support through our products directly fuels this mission. You don't need to take any additional steps—your purchase already makes a difference. For those who wish to further contribute, please visit [TheHomeBasic.com/save\\_a\\_child](https://TheHomeBasic.com/save_a_child).

Together, we can build a future where every child is safe, cherished, and free. Let's support this cause, as God's Children are not for sale!!

Product Name	Portable Blender
Model No.	R100
Base Shell Material	ABS
Blade Material	304 Stainless Steel
Bottle Material	AS food grade
Bottle Capacity	500 mL
Working Voltage	7.4V
Maximum Power	300W
RPM	18,000 RPM
Battery Capacity	2000mAh * 2
Charging Time	2~3 Hours
Indicator	Charging: Red Light Fully Charging: Green Light
Single Working Time	Approx. 40 Seconds
Idle Protection	3 Seconds Off

Use the USB data cable that comes with the original machine to connect the adapter, mobile power supply, computer or car USB for charging. Charging time 2-3 hours can be full, gently plug and unplug the Type-C end when charging, to avoid damage.

1. Plug the Type-C end of the USB cable into the socket on the base of the juicer.
2. Plug the USB end of the charging cable into the adapter, mobile power supply, and USB interface of the computer to charge.

Fault phenomenon	Cause analysis	Troubleshooting method
The battery light blinks periodically	Low power	Charge for 2-3 hours
The power indicator is blinking and does not work	The body and the base are not tight.	The red and blue light flashes after the body and base are tightened.
Empty load is normal. Juicing starts to stop working	Excessive food specifications, excessive food quantity, ice or food stuck blade, resulting in motor overload protection.	Remove the stuck food and pour in the standard amount of solid food, adding enough water or milk.
Leak	The cup body and lid are not tightened, the seal ring is missing.	Check the installation seal ring.

- **Powerful and Efficient Blending:** The HomeBasic R100 Portable Blender boasts a robust 300W motor and an innovative extended cyclone blade system, reaching speeds of up to 18,000 RPM. This powerhouse effortlessly transforms ice, frozen fruits, and vegetables into delicious smoothies in just 40 seconds.

**NOTE:** When not use blender in about 20 minutes, the product will turn off automatically.

- Always read the user manual thoroughly before using the blender.
- Ensure the blender is placed on a stable, flat surface to prevent tipping.
- Always secure the lid tightly before blending to avoid spills and splashes.
- Do not fill the blender beyond its maximum capacity to prevent overflow.
- Allow hot liquids to cool before blending to avoid steam buildup and potential burns.
- Always unplug the blender when it's not in use, and before cleaning or assembling.
- The blades are sharp. Handle them carefully to avoid injury.
- Ensure the blender is out of reach of children to prevent accidents.
- Do not immerse the motor base in water or any other liquid.
- This product is not suitable for mincing meat, and it is not recommended to directly break ice without adding liquid, otherwise it will affect the service life.
- After 3 cycles of continuous operation, please stop the machine for 5-10 minutes and use it after the motor cools down to avoid damage caused by over heating of the motor.
- If you do not use it for a long time, please charge it every three months to prevent battery damage.
- Please drink the squeezed juice in time. It is strictly forbidden to place it in the container for more than 6 hours to prevent the juice from being oxidized and not fresh, so it will rot and produce peculiar smell.
